Filed : February 26, 2004

REMARKS

In the Office Action, a Restriction Requirement was imposed. On page 2 of the Office Action the Examiner states:

"Restriction to one of the following inventions is required under 35 U.S.C. 121:

"I. Claims 1-10, drawn to a method fro treating diabetes, classified in clas 604, subclass 503.

"II. Claims 11-14, drawn to a method for estimating glucose level in a patient, classified in class 604, subclass 504.

"III. Claims 15-36, drawn to a system for monitoring and treating diabetes, classified in class 604, subclass 65."

In response to this requirement, Applicant hereby elects the invention of Group III, including Claims 15-36, drawn to a system for monitoring and treating diabetes, without traverse and without prejudice. Claims 1-14 have accordingly been withdrawn in response to the restriction requirement. Claims 15 and 29 have been amended. No new subject matter has been added. Therefore Claims 15-36 are elected for examination, and believed to be patentable.

Please charge any additional fees, including any fees for additional extension of time, or credit overpayment to Deposit Account No. 11-1410.

Respectfully submitted,
